- **Frontend:** HTML, CSS, JAVASCRIPT, REACT JS
- **DB:** MySQL, SQL SERVER, PostgreSQL
- **Cloud:** AWS

EDUCATION

- **Visvesvaraya Technological University** *Bengaluru*
B.E. Computer Science *CGPA: 8.6*
- **PUC – Sony Academy Jr. Sec. School** *Bharatpur*
Percentage: 92%
- **SSLC – Sony Academy Jr. Sec. School** *Bharatpur*
Percentage: 89.60%

PROJECTS

- **Travel Route Recommendation System Based on Weather Prediction and Geolocation Technology (Jan 2025)**
– Coordinated travel arrangements for staff and clients, ensuring all arrangements were completed on time and within budget. Provided customized travel advice to customers based on their interested needs.
- **Ecommerce website (July 2024)** – Designed an e-commerce website as a powerful tool for businesses to expand their reach, enhance customer convenience, and streamline operations in today's digital-first world.
- **Gaming Cafe Management System (June 2022)** – Designed and implemented a database-driven system to streamline operations in gaming cafes. The project integrated functionalities like customer registration, game cataloging, etc.

INTERNSHIP / EXPERIENCE

- **Software Engineer Intern – Dwise Solution** – Worked on backend development using **PHP + PostgreSQL**. Developed and optimized database-driven web applications, focusing on scalability and performance.
- **Java Full Stack at Qspider (Sep 2024 – Apr 2025) Hebbal, Bengaluru** – Worked as a Front-End Developer for Java Full Stack training at Qspiders. Contributed to developing a fully functional website using HTML, CSS, JavaScript, and ReactJS, and collaborated with back-end developers to integrate APIs and ensure smooth functionality across the application.
- **Agnez Automation Limited, Bengaluru – Innovation Projects on Java Full Stack Internship (Oct 2023 – Jan 2024)**
– Contributed to innovation-driven projects, working on both front-end and back-end development. Implemented core Java, HTML, CSS, JavaScript, and ReactJS while also focusing on server-side using Java, JDBC, and MySQL.

CERTIFICATES

- Python programming & Application projects at Agnez Automation.
- Implementation of Python & ML at Agnez Automation.
- Java Full Stack at Capgemini.
- Java Full Stack at Qspider.
